Photography

We incorporate a mixture of formal and reportage style photography.

We will work with you before the day to plan any specific images that you would like us to capture. We offer a range of photography packages that can be flexible to meet any individual requirements. All of our packages include a DVD with full resolution jpg images (anything between 100 and 600+ photos depending on the package you choose). You will also receive a second DVD with approx 40 photos including black and white, sepia and colour popped. These images will be set to music creating an ideal way to show friends and family the highlights of the day.

We give you reproduction rights to print the photos, or we can print them for you. Your photos will be available to view on our password protected website. You and your guests will also be able to purchase prints directly from the site.

Our 'plus' packages include a beautiful bespoke 30 page Storybook album. This is designed with you after you have received all your images on disc.

DVD and Photography Combi packages

At April Productions we are aware that many couples have to work to a very tight budget when planning a wedding. We are delighted to now offer a DVD and Photography Combi option which is ideal for couples who are on a limited budget but still want to have a professional provide their DVD and Photography.

If you are getting married abroad and having a reception/party on your return this is the package for you. We can video and/or photograph your celebration. This can include your guests arriving, chatting, speeches, disco and first dance of the evening. Video includes two DVD's fully edited. Photography includes a DVD of all images taken in full resolution jpeg format, with reproduction rights to print yourself. Two hours attendance costs £150 per service or £250 for video and photography.
